Small steps, clear choices

◎ **Beginner-first**
Guidance at every step

How it works

Three clear steps to help first-time investors understand the journey before they begin.

1

Create your account

Sign up with your mobile number and complete the initial verification steps.

2

Complete verification

Keep your PAN, Aadhaar and linked mobile number ready for KYC.

3

Explore your options

Learn about available investments and make decisions based on your goals and risk understanding.

Keep these ready

A little preparation helps avoid getting stuck halfway through verification.

▤

PAN card

Keep your PAN details handy.

▣

Aadhaar number

Have your Aadhaar details available.

▯

Mobile linked to Aadhaar

You may need it for OTP verification.

About 5 minutes

You can pause and return if the flow supports it.

Questions people ask

Clear answers before you take the next step.

Do I need a lot of money? +

What if my Aadhaar is not linked to my mobile? +

Can beginners use Sprout? +

Are investments risk-free? +

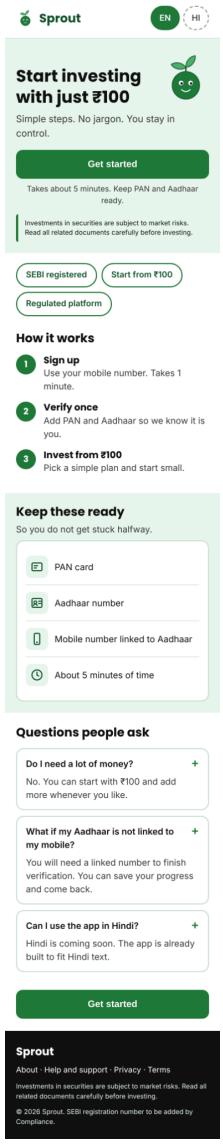

UI/UX case study

Designed as one continuous story.

Explore the responsive homepage, five onboarding screens, mascot states and design system. Select any image to inspect it in detail.

From homepage to onboarding

The same visual language carries users from the first impression through verification.

01 / WELCOME

Set the tone

Introduce the product, the ₹100 starting point and language choice.

02 / PREPARE

Remove surprises

Explain the documents and time needed before asking for details.

03 / VERIFY

Make each step clear

Use labelled fields, readable OTP inputs and a visible progress state.

04 / REASSURE

Explain the wait

Show a clear verification status and tell users what happens next.

🌱 Sprout 2.0

Small steps. Clear choices. Better-informed investors.
